PROFILE

Full-stack engineer with **5+ years** of hands-on experience building scalable web and mobile products from the ground up. Comfortable across the stack — React, React Native, and Next.js on the front; Node.js, Express, and Laravel on the back. Founder of **StageCrown**, an event-discovery and ticketing platform. Currently building backend services at **VivaFemini**.

EXPERIENCE

2026 — Present **CURRENT**

Backend Engineer · VivaFemini · Africa's first women's health platform

- Building backend services for telemedicine, symptom checking, and community features serving women across Africa.
- Designing privacy-first data flows for clinical guidance and reproductive-health records.

2024 — Present

Founder & Engineer · StageCrown · Event discovery & ticketing platform

- Founded and built StageCrown.
- Shipped QR-based ticketing, organizer dashboards, live check-ins, and refund tooling.
- Integrated Payscale and Flutterwave for seamless payments across multiple African markets.

2024 — 2025

Software Engineer · Hobwise · Hospitality management platform

- Built features across the QR menu, reservations, and live analytics surfaces.
- Improved checkout reliability and reduced order errors through cleaner state management.

2023 — 2024

Software Engineer · FPlacid International

- Led front-end development of **LeishTon BoardGov™**, a corporate-governance dashboard.
- Proposed and implemented design layouts that improved UI consistency and client engagement.

2022 — 2023

Front-End Engineer · United Bank for Africa (UBA)

- Collaborated on the full rebuild of the UBA corporate website with HTML, CSS, JavaScript, and API integrations.

- Established and maintained a detailed style guide for consistent branding across platforms.
- Led debugging efforts and documented critical bugs, improving the team's debugging workflow.

2022 — 2023

Front-End Engineer · Brightstar Integral Technology Solutions

- Developed and maintained internal web applications using React, Redux, and TypeScript.
- Partnered with designers to build visually appealing, user-centric features.
- Improved application performance by optimizing front-end code and implementing best practices.

2020 — 2021

Tech Lead · HNG Internship

- Led a track of junior developers through real-world project sprints and code reviews.

SKILLS

Front-End React, Next.js, React Native, Redux, TypeScript, JavaScript, HTML, CSS, Tailwind CSS.

Back-End Node.js, Express.js, Nest.js, PHP / Laravel, RESTful APIs, GraphQL.

Databases PostgreSQL, MongoDB, MySQL

DevOps Git, GitHub, GitLab, CI/CD, Postman, Swagger
